

3 Day 2 Night Dive to Adventure

Certified Divers & Snorkellers

The Great Barrier Reef is renowned as one of the seven natural wonders of the world and a declared World Heritage site. It encompasses 350,000 square kilometres of the South Pacific Ocean, extends for 2,000 kilometres, is made up of 2900 individual reefs and 71 coral cays. Its ecosystem supports the greatest concentration of life on this planet including 1500 species of fish, 350 different kinds of coral, 4,000 species of molluscs and 10,000 species of sponges. Water temperatures range from 22°C to 30°C allowing comfortable diving all year round.

When you join our 3 day dive adventure, you will visit up to four easterly Outer Great Barrier Reef locations, taking in sites selected for their extravagance of marine life and excellent visibility - these sites are rarely visited by other vessels. Divers get the opportunity to view magnificent hard and soft corals, giant clams, turtles, stingrays and the largest variety of tropical fish, both large and small. The schedule allows for a total of 11 dives, 2 of which are night dives (conditions permitting) and snorkelling. Cabins onboard are all twin share (2 single bunks) and there are two double cabins available upon request. All major international scuba accreditations are accepted and snorkellers are also most welcome.
