## **PRODUCT DESCRIPTION – 3 DAY 2 NIGHT LIVEABOARD DIVE TRIP**

The best way to really experience the Great Barrier Reef is to stay out there for a few days. This gives you much more time to really enjoy the reef in a more relaxed environment. The amount of diving and snorkeling you'll get to do as well as the opportunity to do night dives, combined with two nights accommodation, makes this live aboard adventure unmatched for experience and value.

Our three premium dive boats provide you with fully air conditioned, comfortable and spacious living conditions. Accommodation on board is all double or twin-share at no extra cost.

You'll have the opportunity to do 11 dives, (9 day and 2 night), as well as lots of snorkeling. On every trip we visit a large variety of our 16 exclusive sites (refer to 'Our Dive Sites' section in our web site [www.prodivercairns.com](http://www.prodivercairns.com) for detailed information on Pro Dive Cairns specific reefs and dive sites) These sites provide some of the best outer reef diving available and have been selected for their variety and quality of coral and marine life, as well as great visibility. We rarely dive the same site more than twice.

## **PRODUCT DESCRIPTION - ADVANCED COURSE**

This course is the first step beyond basic or entry level certification. It will help develop your confidence and comfort ability underwater by expanding your existing skills. It also allows you to participate in dives up to 30 metres in depth. This course is conducted in conjunction with our three day two night trips and gives you a total of 11 dives (9 day and 2 night dives). These dives consist of five training dives and six recreational dives.

The five training dives are made up of a deep, night and underwater navigation dive. The remaining two dives are chosen from a number of other dive topics (E.g. Underwater photography, boat dive, search and recovery, marine naturalists)
