PRODUCT DESCRIPTION:

If you are thinking about taking the plunge and learning to dive, our 5 day PADI “Open Water” dive course is our most popular option for you to become a scuba diver. The adventure of staying out on the reef for three days and two nights and the five extra recreational dives makes this course unmatched for experience and value.

This dive course option consists of two days of theory and pool training then a three day / two night liveaboard dive trip, including nine dives

Day 1 & 2 You will learn the basics of scuba diving, both classroom and pool, at our modern, purpose built diver training centre in Cairns. Our dive training pool is heated for year round, all weather comfort.

Day 3 - 5 You will spend out on the reef on one of our three multi million dollar live aboard dive boats. You will have the opportunity to do nine dives on a variety of our exclusive outer reef dive sites. These dives consist of four training dives to complete your certification then five additional recreational dives to enjoy your new skills and gain some experience. One of these five dives is a guided night dive.

These extra dives, especially the night dive, will be a highlight of your dive course. On the night of day five, after your return from the reef you have the opportunity to join the crew from your trip for a farewell dinner at a local restaurant.
